

Headteacher's Newsletter 2025-26 Issue 18 19/04/26

Thank you to the parents who attended our recent workshop that gave details about how we challenge our pupils working at greater depth. It was great to see such engagement and will support you and your children enormously. We will email out the slides for parents who couldn't make it. The Q and A session at the end was also a brilliant opportunity for us to listen to you about what would help you to support your child's learning. Look at later this term for some Maths and English workshops to show you some of the strategies we use in school!

We pride ourselves on providing great learning opportunities outside of the classroom at Willow Grove. Year 3 recently enjoyed a trip to Warwick Castle and had the most fabulous time! It is these kinds of experiences that helps learning to stick! Please do support us by ensuring that you pay in full for trips. If we do not cover the cost of trips, they will be cancelled. We will always try to support you - if you are struggling financially, please do come in for a chat (this can be a discreet conversation with Mrs Andrews or Mrs Kennedy if needed). We can let you pay in instalments or delay payment if needed. In exceptional circumstances, we may be able to support you with a discount. Look out for trips coming up for the other classes!

We had a wonderful Vaisakhi Celebration this week! Thank you again to our parents who shared information with the school about their faith and how we could celebrate this in school! We have also started some conversations with families of other faiths and we are very excited about exploring further cultural and religious festivals in school. If you have any ideas and would like a chat about this, please do get in touch!
